## → **Retail Spaces**

3D Liquid Floor Tiles will be the Excellent Choice for the Retails Spaces as they can be Customized as per the match to your Branding & Styling of the Store which creates an Immersive & Engaging Shopping Experience for the Customers.

# How to Install 3D Liquid Floor Tiles ??

## → **Preparing the Surface**

First of All, Level the Installation Surface & Prepare the Floor by using Good Quality Tile Adhesive or Mortar. You must ensure that the Floor surface is Flat before you start Laying the 3D Liquid Floor Tiles.

## → **Check for Dampness**

The surface where the 3D Liquid Floor Tiles will be Installed must be Thoroughly cleaned and free from any Debris, Dust or Contaminates. Any Existing Flooring must be removed and the surface should be Sanded or Leveled if Necessary.

## → **Curing**

The 3D Liquid Floor Tiles are left to Cure for the recommended amount of Time. Usually several hours or Overnight. It's Important to Ensure that the area is kept free of Foot Traffic or Other Disturbances During this time.
